

Rancho Naturalista Checklist and nearby sites in the Tuis-Turrialba region of the Talamanca mountains, 1900-4500 ft.

LOCATION CODE

- [R] Rancho Naturalista: 2300-3500 ft.
- [T] Tuis River Valley: 3000-4500 ft.
- [C] C.A.T.I.E./Turrialba: 1900-2300 ft.

ABUNDANCE CODE

- 1 = Should be seen daily, generally a hard species to miss.
- 2 = Should be seen on most days of a visit to that particular habitat.
- 3 = Somewhat less common, but should still be seen. Requires some effort.
- 4 = Species is uncommon or of erratic occurrence. Generally tricky to find.
- 5 = Species is rare, seen annually, but few records per year. You'll need some luck!
- 6 = One or two records only, not to be expected. Confirmation needed.
- * = No recent records.
- h = Heard considerably more often than seen.
- n = Migrants from North America, mainly present Sept through May.
- s = Migrants from South America, mainly present March through Sept.
- t = Transient migrants, mainly present from March through May and Sept through Nov.
- d = Present mainly in dry season, Dec through March.
- r = Present mainly in rainy season, April through Sept.
